Silver Men Show Their Strength in Defeating Immediate Consideration of the Tariff Bill-How the Substitute Was Arranged-The House Proceedings Capital Notes.

WASHINGTON, July 7.—The conferees on the part of the two houses this afternoon reached an agreement on the points of dif-ference in the silver bill.

This result, which was hardly expected

this result, which was hardy capacity to be reached so soon, was brought about in this way: After the first ineffectual conference last Thursday, the Republican members decided that an agreement could be more speedily and satisfactorily reached

members decided that an agreement could be more speedily and satisfactorily reached by a party consultation rather than in a conference open to both political parties. Accordingly Senators Sherman and Jones and Representatives Conger and Walker entered upon the task of drafting a compromise measure. They progressed so rapidly in this that the conference substitute was completed in all essential points save one and sent to the printer.

The one point left open related to the amount of silver bullion to be purchased. Messrs Sherman, Conger and Walker thought that 4,000,000 ounces monthly would be a compromise, but Senator Jones the state of affairs this morning when overtures were again made to Senator Jones to accept 4,250,000 ounces. The western senators were in receipt of telegrams urging them to hold out for full amount of 4,500,000 ounces and to insist on a speedy disposition of the bill; so the overtures was a great constituency—the people of the United States—and to that forum was made to take up the tariff bill this afternoon the silver men manifested their power to check the flow of party legiclation. trnoon the silver men manifested their power to check the flow of party legislation power to check the how of party eggination unless their demands were met. Soon afterwards the Republican members of the conference were again called together, the words "live hundred thousand" were add-ed to the 4,000,000 ounces contained in the printed conference substitute and the egreement was complete. On motion of Mr. Payson, of Illinois, the house went into committee of the whole (Mr. Peters, of Kansas, in the chair) for the consideration of the senate bill to forfeit certain lands heretofore granted for the purpose of adding in the construction of railroads with a house substitute therefor. proposed to forfeit and restore to the pastic domain all public lands wherever situated which have been granted in aid of the construction where the railroads have not been completed at this time.

Mr. Stone, of Missouri, took the position that a forfeiture should be of all lands which had not been earned by the railroads by the time fixed in granting acts for completion of roads. The Northern Pacific road, he said, was most vitally interested in this measure. The pending legislation, the railroad companies and especially the Northern Pacific, demanded of congress. The speaker in the Forty-seventh congress, when chairman of the judiciary committee, had reported that congress had no power to forfeit an acre of the Northern Pacific grant. Since then Thomas B. HOW THE ENGLISH REGARD IT.

LONDON, July 7.-That important in structions have been sent the British navy squadron in the Pacific is a matter of well authenticated report. But the nature of the instructions can not be definitely asserthe instructions can not be definitely ascertained. It is understood that the flag ship, Warspite, has been ordered to the Pacific coast of British America and that a formidable array of men-of-war is to be gathered there to defend vessels sailing under the English flag against American attack. How far the English may be prepared to go is not stated, but American cruisers conveying prizes to San Francisco will be very likely to encounter English ships of war on the voyage and probably be asked for explanations. It is stated that the American naval force on the Pacific is insignificant compared with the British squadron, and that the English washing the formal report to the senate and then notified the Democratic members — Senator Harris and Representative Bland—who happened to be in the senate chamber, that another conference was to be had. This time the conference committee was in session about half an hour. The agreement was formally ratified, although the Democratic members refused to sign the report.

It is stated that Sir Edward Bradford, the new chief of police, has adopted an unusual method of proceedure. Ordinarily reports of officers against discipline are submitted to the Scotland Yard authorities and the men implicated appear when their cases are to be settled. But now it is alleged such cases are handled hastily and the men are not given a fair opportunity to make explanations. The Scotland Yards people are making vigorous efforts to meet the emergency, but it looks as if nothing but an immediate reply from the home secretary will avert a most serious strike. In anticiptation of a strike, riotous mobs blocked up Bow street and vicinity this evening, preventing the constables from reaching the station. The crowd became turbulent Mounted officers endeavored to clear a passage and were received with hoots and pelted with bags of flour, sticks, etc. In one instance the constable had to rescue a fellow officer who was attacked by a crowd.
